EARLY PROOF SETS

1895 Proof set. This set unfortunately lacks the dollar. This set is a Gem and shows none of the abrasions, etc. which are characteristic of sets made up piece by piece. The dime in the 1895 set is scarce and recently sold for $55.00 at auction. This set $90.00

1914 Proof set. This set is the rarest coined since 1858. There were only 380 sets coined. This is another gem as is the one to follow. These sets have been kept intact since the date of issue. This set is mounted in a gold lettered crystal-clear plastic holder $315.00

1915 Proof set. Another gem which is also mounted in a clear gold stamped holder. The half dollar in this set has sold over $100.00 and the dime and quarter are rapidly climbing in demand and price. This set 475.00

RARE GOLOID DOLLARS

In 1879 and 1880 were struck two of our most beautiful pattern coins. These were the Goloid metric dollars by Morgan. Less than 12 were struck on each date. The obverse of this coin shows the head of Liberty facing left; similar in design to the coiled hair Stellas of the same dates. The reverse bears the inscription UNITED STATES OF AMERICA - 100 CENTS with GOLOID METRIC DOLLAR DEO EST GLORIA within the first inscription. The center of the reverse shows the respective weights of Gold, Silver and Copper used. This is surrounded by a circle of stars.

I have one of each date available; both proofs.

RARE GOBRECHT HALF DOLLAR

1838 pattern half dollar designed by Christian Gobrecht. This piece has the Liberty seated obverse as adopted in 1839. The reverse consists of a flying eagle in a plain field with the encircling inscription UNITED STATES OF AMERICA - HALF DOLLAR. This coin is struck in silver and is a proof. This piece lacks the heavy die breaks extending from the eagle as are found on all restrikes from the die. This coin is an original and one of two known. The other known specimen [illegible] reported in the Dupont sale about 5 years ago where it sold for $[illegible]. This coin [illegible]

ABSOLUTELY UNIQUE

I have just acquired the Unique trial piece AW 440. This is my impression of the master die of the Liberty seated quarter by Christian Gobrecht. Struck in brass on a wide planchet. Obverse shows the seated figure of Liberty without any devices in the field. A guide line for the placement of the stars surrounds her. Reverse has the regular designs but on a raised field surrounding the eagle. The reverse is coin concave with the eagle in high relief. From the Woodin collection 275.00

BUFFALO TYPE

Complete set of Buffalo nickels 1913 to 1938 with the exception of the overdate and 3 leg varieties. Most of the dates are Uncirculated and all are choice. The Buffalo nickels are possibly one of the fastest rising sets on the coin market. Getting to be nearly impossible to complete in choice condition. This set is an excellent opportunity for a collector to acquire a choice set without having to pay over a thousand dollars for a strictly Unc. one. This choice set is available at $495.00

Complete set of 18 silver medals of the Bavarian princes from 1183 to 1769 inclusive. Proofs struck in silver by Schega circa 1780. In original leather bound case with a crest on cover.
